INDIANAPOLIS. BLOOMINGTON.

WESTERN RAILWAY 7 Per Cent Gold Loan.

The bonds are in denominations of \$1,000 each, secured by a first mortaage on 205 miles of road, from Indianapolis, the largest city and most important rail-road center in the State of Indiana, to the City of

Pekin, in Illinois.
ONE HUNDRED AND SEVENTY MILES of the ONE HUNDRED AND SEVENTY MILES of the line are now in Full OPERATION, equipped with new first-class rolling stock, and already EARNING MUCH MORE THAN THE INTEREST ON THE WHOLE ISSUE OF BONDS. The balance, thirty-five miles, is being rapidly constructed, is nearly all graded, and UNDER CONTRACT TO BE FINISHED DURING THE CURBENT MONTH.

There are thirty-six depots on the line, LOCATED IN CITIES AND TOWNS THAT CONTAIN, IN THE

AGGREGATE, A POPULATION OF 190,000, averaging over 920 to each square mile, within a radius of half a mile of the track, and WITHIN TWE. TY MILES OF THE TRACK THESE IS A POPULA-

MILES OF THE TRACK THESE IS A POPULA-TION OF ABOUT 6.0,000.

It passes through the counties of Marlon, Hendricks, Montgomery, Fountain, Warren, and Vermillion, in the State of Indiana, and Vermillion, Champaign, De Witt, Platt, McLean, and Tazewell Counties, in Illinois, on the line of the old emigrant State road, which was laid out in the best portion of these States before the time of railroads, was then the main line of Western travel, and consequently became more thickly settled than other sections of the West, as the numerous cities, large villages, and products of these counties demonstrate.

countes acmonstrate.

Besides the large agricultural productions of this section the manufacturing interest is very extensive in the large towns, and is rapidly increasing.

The coal-mines at Danville on this line are exten-

sively and profitably worked, and FURNISH BUSI SIVELY AND POTABLE STATES AND THE REST FOR OVER THREE HUNDRED COAL CARS ON this Line at present, and MORE THAN TWICE THAT NUMBER WILL BE REQUITED TO CARLY COAL ON COMPLETION OF THE REMAINING

From the present earnings on 170 miles it is safe to assume that the LOCAL BUSINESS ALONE WILL BE AMPLE NOT ONLY TO PAY THE BONDED DEBT, BUT LARGE DIVIDENDS ON THE STOCK.

In addition to the population and wealth of the country, and all that is necessary to support a first-class road, and make it a profitable investment through local traffic, it forms a gran I central trunk line for through business, NOT SURPASSED BY ANY ROAD OF EQUAL LENGTH IN THE WEST.

At Indianapolis it connects by main lines with the cities of Columbus, Cleveland, Pittsburgh, Cincinnati, and with the Pennsylvania Central, Baltimore and Ohio Chesapeake and Ohio, and other important Railread lines. At Pekin, the Western terminus, connections are made with Peoria, Quiney, Keokuk, Burlington, and Omaha. At Bloomington, with the Illinois Central Road, which runs north-west 600 miles to Fort Dodg Road, which ran notherwise sow mines to retribudge, lowa, A very large business will be done with this line. At Danville it connects by rall with Toledo on Lake Eric. A map will show all these to be very important connections in making through lines over

The Loan is placed beyond any contingency by the present earnings from local traffic on 170 miles, which must necessarily be doubled when the trains run

THE BONDS ARK CONVERTIBLE at the option of the holder into stock at par at any time, which adds greatly to their value, They may be registered at the Farmers' Loan and Trust Company, if desired.

at the Farmers' Loan and Trust Company, if desired. Coupons payable April and October, free of tax.

Total loans \$5,000,000—\$2,000,000 of which are placed in trust with the Farmers' Loan and Trust Company to redeem and cancel \$2,000,000 bonds issued to the Danville, Urbana, Bloomington and Pekin Rallroad, mow lerged into this road, making the loan only \$5,000,000, WVER HALF OF WHICH HAS BEEN SOLD IN EUROPE AND THIS MARKET, The balance we offer at 92% AND ACCRUED INTEREST. At this low price the Bonds, being so amply secured, will be quickly marketed.

We have been thoroughly posted in regard to the road from the start, have closely inspected it from time to time during construction, and being familiar with the wealth and recourses of the country, the with the weaks and resources of the country, the responsibility and integrity of the officers and directors of the Company, and the present earnings of the road, it is with pleasure that We RECOMMEND THE BONDS AS ONE OF THE CHEAPEST AND SAFEST INVESTIBENTS IN THE MARKET, sure of a high country among the best radiroad securities in the country.

All marketable securities received in exchange at market rates. Bonds delivered to all points free of express charges.

Demand and Time Bills of Exchange, payable in London and elsewhere, bought and sold at curren rates, also cable Transfero, the cable Transfero, and the sold at curren careas, also cable Transfero, and Deat's on Scotland and Ireland, also on Carada, British Columbia and San Francisco. Bill collected, and other Hanking business transacted. JOHN FATON. ARCH. MCKINLAY, Agents. All marketable securities received in exchange at market rates. Bonds delivered to all points free of express charges. TURNER BROTHERS, DEMANCERS IN SOU CELLANEOUS No. 9 NEV BANKERS, No. 14 NASSAU STREET.

St. Joseph and Denver City RR. Co.

St. Joseph and Denver City RR. Co., in denominations of \$1,000 and \$500, coupon or registered, with interest at Eight Per Cent per annua, payable 15th February and August, in Gold, free of United States Taxes, in New York or Europe. The bonds have thirty years to run, payable in New York, in Gold. Trustees, Farmers' Loan and Trust Company of New York. The mortgage which secures these bonds is at the rate of \$13,500 per mile; covers a completed road for every bond issued, and is a first and only mortgage. This line connecting St. Joseph with Fort Kearney will make a short and through route to California.

Total \$15,500 000

Length of road, 271 miles; price, 974 and accrued interest. Can be obtained from the undersigned. Also bamphlets, maps, and information relating thereto These bonds being so well secured and yielding a large income, are desirable to parties seeking safe and incrative investments.

THE FUNDING BILL.

Whatever may be the fate of the proposed new funding project of which there has been so much said in Wall street of late, the reasons are not far to seek for the unpopularity of the Senate Funding Bill which is to be finally disposed of next week in the House of Representatives. In the first place it is quite too complex, and is not strictly a funding bill at all. It threatens fundamental changes in banks and banking, it deranges and disturbs the currency system of the country, and it aims at an object which many men of experience deem incapable of accomplishment in the way and at the time proposed. At an immense expense, during Mr. McCulloch's Secretaryship, the debt was funded in its present form, and in that form it ought to remain for some time to come. Such at least appears to be the popular opinion. Or at least if we are to have a new funding bill, we ought to have a measure which does not aim at too much, but is simple and practical, equally devoid of complexity in its details and of danger in its execution.

The bill as it stands has three leading features. First, it millions of four and a half per cent Fifteen-Forty year bonds, assuredly entail on the country some memorable disaster.

and an unlimited amount of four per cent Twenty-Forty bonds. The last-named securities are to be issued in exchange for any outstanding debt of the United States, including legal tender notes, and the amount is limited only by the provision that the debt of the United States shall not be increased in consequence of any such issue.

Secondly, each of these descriptions of bonds is to be free of all tax, and is to be payable in this country, both principal and interest in coin. To pay the interest and reduce the principal of the public debt, the sum of 150 millions a year is appropriated in coin, the Sinking Fund arrangement being discontinued. It is also to be observed, that, although the bonds are payable in this country, the Secretary of the Treasury is authorized to advertise the loan, and to employ agents for the purpose of negotiating it in Europe and in this country.

The third feature of the bill is that which has stirred up the most lively hostility on the part of the National banks. It compels these institutions to take up their bonds which are now held in Washington, and to substitute therefor new bonds bearing 4 or 4½ or 5 per cent. The banks are allowed to use these new bonds and no others as security for their circulation, and they may if they please deposit 4 per cent bonds for the whole amount. If any of the 41 or 5 per cent bonds are used for this purpose no more than one-third of each is allowed. As a set-off to this restriction, however, the banks are allowed another privilege. They may in sums of \$50,000 surrender greenbacks in exchange for 4 per cent bonds at par, and on these bonds they may receive new issues of bank notes. Those bank notes the bureau at Washington is compelled to issue without regard to the limit of 300 millions. The effect of this arrangement is to relieve an unbounded amount of greenbacks from circulation, and to supply their place with National bank notes. The limit of 300 millions being repealed, the bank currency may gradually increase and the greenback currency diminish, until the latter shall have almost wholly disappeared from general circulation. To perfect the security of the bank circulation, the new bonds are to be received as the basis of \$100 in bonds for \$80 in currency.

These are the general features of the pending bill which we recapitulate here in order, that it may be clearly discriminated from Mr. Garfield's bill, which we discussed last week, and which it resembles in several important particulars.

It is needless to examine minutely the claims of this revolutionary bill to the public attention. It sets at defiance the most sacred canons of financial statesmanship. It has secured the unanimous condemnation of the more enlightened and disinterested observers among us, and if in an evil hour Conauthorizes 400 millions of five per cent Ten-Forty bonds to gress should be betrayed into the error of enacting it into a be exchanged for six per cent Five-Twenty bonds, also 400 law, any attempts to put it into active operation would

THE PRINCIPLES OF FUNDING.

The active promoters and designers of funding schemes seem to have a notion that there is a magic power in legislation to fix the rate of interest at which money can be borrowed; and that buyers have only to enact a loan at four per cent. in order to negotiate it, Others, who see clearly that the market for loans, as for everything else, is regulated by the abundance of loanable funds and the credit of the borrower, have a notion that the length of time which a loan has to run is a primary element of its value; and that the government can add indefinitely to the desirableness of its bonds by giving them a great many years before redemption. Bo strongly has this been stated recently on the floor of the United States Senate, as almost to tempt a hearer to suppose that certain Senators consider no interest at all to be necessary, if only the loan might run forever. It ought to be enough, in answer to this suggestion, to point out that the most popular government bonds in the world have no specified time to run at all, and are redeemable at any day, at the pleasure of the debtor. This is the case with the English Consols, which pay little more than three per cent, and the French rentes, which pay but four and a half per cent. upon their market price.

But sirce these examples, which are universally known, are not sufficient for some of our financial theorists, it is worth while to examine the principles on which the market prices of different classes of bonds, varying in the length of time they run and in the rate of interest they bear, are determined. These principles are important, because it is only by carefully allowing for their influence, and eliminating them from the calculation, that the comparative credit of two borrowing nations can be understood. The best general expression for the credit of any borrower is the rate of interest which he must pay, in order to obtain a loan. For example, if money is so abundant in New York that a strictly first-class mer cantile house can sell its paper at six per cent., any house which commands so much less confidence that its paper, for the same period, will only sell at nine or ten per cent. must rank as decidedly of a lower grade; and the comparison of the rates of discount at which different signatures are quoted affords the accurate test of their credit, taking the lowest rate upon the paper of the very best houses as the standard of absolute security. The same rule applies equally well to nations as borrowers.

The standard of absolute security in the most abundant money market in the world, that of London, may be said to be the British consols; which draw three per cent interest, and are quoted in round numbers at an average price of ninetyfour, so that the investor obtains three and one-fifth per cent for his money. But this standard is a very high one in all respects. The loan is held almost exclusively in Great Britain, hence the interest is collected without delay or expense, and by citizens of the government that owes it, having all the authority of the nation and the prestige of sovereignty to support it. The accumulation of money in that country is far greater than any other, so that the current rate of interest is almost always low; and the market is always open for negotiating sales of the debt or loans upon it. No foreign bonds can ever be as desirable as home bonds; and British consols cannot be regarded as a standard for the debts of other nations, in which the current rate of interest is higher. because profiles are larger; and in which the accumulation of loanable funds is not only far less in amount, but far less constant. For instance, the rate of interest paid in England on first-class landed security is not far from the same as that paid by consols, although the expense and delay of conveyancing give the latter some advantage. But it is safe to affirm

there above four per cent without a marked fall in consols; nor could that rate fall much below three per cent without bringing the price of consols to or above par.

Now, suppose that the British government wished to negotiate a new loan in place of consols; with a definite time to run before redemption at par. For instance, suppose it to issue a new three per cent loan with ten years to run, what would be its market value? Since the credit of the government is precisely such as to command three and one-fifth per cent, it is evident that the new loan must sell so that the purchaser will get this rate of interest; and since he will receive three per cent in his semi-annual dividends, he must have the equivalent of the remainder, or one-fifth of one per cent per annum for ten years, in the form of a discount upon the par value of his bond. That is to say, he would pay a little more than ninety-seven for the new loan; so that, at the end of the ten years, when it is paid, he will have just what he would have had if the full interest of three and one-fifth per cent had been paid every year.

On the other hand, let us suppose the rate of interest to fall, so that the British government could command loans at the rate of two and a half per cent per annum, its bonds would of course be above par; and it would be the privilege of the government to redeem them at par by the issue of a new loan at a lower rate. Suppose the new loan to be issued with ten years to run, at the rate of two per cent per annum-at what price must it be sold? Obviously, at such a price as will give to the purchaser, at the end of the ten years, just as much as he would have received by compounding his interest for that period at two and a half per cent; that is, he must receive, in a discount from the par value, one half of one per cent, in addition to the proposed dividend of two per cent. The new bond would, therefore, sell at nearly ninety-four per cent, or the present piece of Consols. That is to say, when a bond, with a definite time to run, sells for less than par, it is because the rate of interest which it nominally pays is less than the rate of interest which the borrower's credit will

The opposite of this proposition is no less true. In 1855 and 1856 the United States owed money borrowed at six per cent. But its credit had improved, so that these bonds rose in value, and for a long time sold as high as 115. They had still eleven or twelve years to run, and the purchaser at these high prices would receive six per cent, every year, until the bonds were paid, when he would only receive 100 for them at their redemption. The premium of fifteen per cent was paid by him in advance, to be repaid only in the interest; so that if he held the bonds until redemption, he would have only as much as if he had invested his money at compound interest at four and a half per cent per annum. In other words, the credit of the United States, at this time, when its debt was small and its treasury overflowing, was such that four and a half per cent was a fair rate of interest for it to pay; and this instance exhibits the general principle that when a bond, with a definite time to run, sells for more than par, it is because the rate of interest which it nominally pays is higher than the rate of interest which the borrower's credit will really command.

British consols cannot be regarded as a standard for the debts of other nations, in which the current rate of interest is higher, because profits are larger; and in which the accumulation of loanable funds is not only far less in amount, but far less constant. For instance, the rate of interest paid in England on first-class landed security is not far from the same as that paid by consols, although the expense and delay of conveyancing give the latter some advantage. But it is safe to affirm that the average rate upon the best mortgages could not rise

sum pur of Atla it be not made so short as to take it out of the list of permanent investments entirely, and make it so uncertain as to offer no inducements to those who wish a fixed revenue secured to them.

It is, of course, understood that these are only general principles, by which the values of bonds are governed, subject to the influence of local and temporary circumstances in the markets, and to that of particular features in the bonds themselves. These special influences sometimes prevent a security from being a trustworthy indication of the actual credit of the debtor. For instance, the five twenty bonds were long depressed by the doubt whether they would be paid in real money; and they are even now lower in proportion to the interest they pay than the ten-forties; which may arise in part from this old doubt as to payment, and in part also from the fact that they are more abundant; but, probably, chiefly because the margin for profit in buying them, in view of their being soon funded, is so much smaller. The five-twenties are, or soon will be, redeemable at par in gold; hence they cannot rise much above that price, and the possible profit in buying them at 96 or 97 is less than buying the ten-forties at 94. These incidental variations in price do not affect the worth of the general rule stated above.

In order to determine the rate of interest at which the United States could now fund its maturing or redeemable debt, therefore, we have only to ascertain the rate at which they can command loans in the open market, apart from the special privileges which give exceptional value to such securities as the three per cent certificates. The best data for this purpose are afforded by the ten-forty gold bonds and the six per cent thirty year currency bonds issued to the Pacific railway companies. If the former sell at 94 and the latter at 110, each in the currency in which it is to be paid, it will follow that the United States can borrow gold at 51 per cent, and greenbacks at almost exactly the same rate. It appears then that any attempt to fund the debt at present at any rate lower than 51 per cent must needs fail, if it did not even disturb values and unsettle credit so as to postpone the time when funding may be hoped for. It appears also that the credit of our government in the world's markets is now advancing, since the rate at which it can borrow has fallen from above six per cent to about 51 per cent, and that another year of equal success in our financial administration would bring a loan on consols at five per cent to par, and would then enable the Treasury gradually to put the whole debt in a more manageable form, and to save at least \$12, 000,000 a year in the interest. But since the funding rate must necessarily be determined, not by act of Congress, but by the actual credit of the nation at the time it is done, it is plain that any attempt to put the debt in a permanent form before that credit is finally established, and the present growth of it fully matured, would be premature and injurious,

FOREIGN EXCHANGE AND PRODUCE EXPORTS.

The exports of cotton furnish, during a considerable part of the year, so large a portion of the commercial bills on the market, that the approach of the season when the supply from that source must diminish, has been regarded by some as a period when an advance in the rates of exchange was likely to take place. This is not necessarily a correct conclusion, as there are some particulars in which the produce movement this summer will differ from last summer's movement. For the purpose of illustrating this, we give the following statement of the exports of cotton, breadstuffs, and tobacco from the Atlantic and Gulf ports of the United States from June 1 to September 1, 1869

Cotton 85,000	bales,	valued	at			 	 	 .gold	\$3,500,000
Flonr 850,000	bbis	44				 	 	 	3,825,000
Corn meal 65,000		66				 	 	 	300,000
Wheat 9,500,000						 	 	 . 46	10,075,000
Corn 325.000	hush .	4.6				 	 	 	300,000
Tobacco 27,500 Tobacco 24,700	hhds.	4.6				 	 	 	5,815,000
Tobacco 24,700	o her	okgs v	ralı	ed	at.	 	 	 44	2,000,000
Tobacco,m'f'd.2,900,00	0 lbs.,	valued	at			 	 	 	609,000

Total value in go'd \$30,425,000

We have not taken into this calculation the important item of Petroleum, nor the export of breadstuffs from the Pacific coast; they are not necessary to our present purpose, though they should not be lost sight of.

From the above it will be seen that for the three summer months last year the exports of cotton were 85,000 bales, with \$100 gold per bale—a fair valuation. At the close of May, 1870, there was a stock of cotton in this country of about 302,000 bales, against 150,000 bales the corresponding date last year. It is very plain that the receipts of cotton at the ports are for the remainder of the season to exceed last year's movement during the same period, and will be in excess of the wants of our spinners, leaving, in case crop reports continue favorable, the whole of the stock to be exported, which, at the reduced value of say \$80 gold per bale, amounts to the sum of about \$24,000,000 in gold.

The exports of breadstuffs-of wheat and wheat flour in particular-during the summer months of 1869 were unusually large, about two-fifths of the exports of a year in which the shipping demand was much above the average. But we see no reason to doubt that the export for the coming summer will be fully as large. The demand from Europe is more general and legitimate, and less speculative now than then; while other foreign markets which draw supplies from us are purchasing with great freedom. Prices are now rather higher in gold than last June; so that our shipments of flour and wheat for the next three months may be estimated at \$15,000,000 in gold—an amount that will seem incredible to one who has not fully examined the subject. But when it is remembered that during the summer months of 1869 from this market alone we exported 600,000 bbls. flour, valued at \$2,700,000 in gold, and 8,720,000 bushels of wheat, valued at \$9,000,000 in gold, with supplies now coming forward in excess of last year, the above estimate of fifteen million dollars from the whole Atlantic seaboard will not be considered excessive.

We now come to tobacco. The last crop of Kentucky tobacco is estimated at fully 30,000 hhds. short, and the deficiency may reach 40,000. The short crop led to extreme prices. These have greatly retarded the export of this staple, and hence the shipments which should have been made in April and the first half of May are now in progress. However much therefore the falling off in the crop may contribute to a diminished aggregate export, the movement for the next three months is likely to equal in amount the corresponding period of 1869; and as it is going forward at a great advance in gold prices, the value of the tobacco to be exported will exceed last years figures probably approximating ten millions of dollars. We thus reach the following estimate of the gold value of the exports of these three great staples for the next three months:

 Cotton
 \$24,000,000

 Breadstuffs
 15,000,000

 Tob.cco
 10,000,000

 Total
 \$49,000,000

—an increase of nearly nineteen millions over the corresponding period of 1869, or nearly one and a half millions dollars in gold per week—an item of no small importance in estimating the future of exchanges.

The exports of other articles of produce are likely to rather exceed than fall below last year, particularly in gold value. This is now true of petroleum; while our imports from many evident causes are not generally estimated at so large a figure as last season.

We give these facts as they are of importance in connection with the movement of exchange and gold during the summer. Last year the unprecedented and unexpected export of breadstuffs disturbed the calculations of those who were looking for an outflow of gold. This summer, notwithstanding the bond movement is likely to be small, the increased supply of bills from the sources above indicated may lead to a similar result.

REVIEW OF THE MONTH.

May has been on the whole a satisfactory month in general busi ness. In the merchandise markets there has been a steady, healthy movement, compensating for the dullness complained of at the opening of the spring season. The purchases of the West have been liberal and collections in that section have been generally satisfactory. In the Southern trade there has been some disappointment, attributable, perhaps, rather to unreasonable expectations than to the amount of business having been really light. The trale in foreign goods has been healthy, stocks having been well reduced, and, in the main, at satisfactory prices. The decline in gold has naturally made this class of merchandise appear cheap, thereby eccouraging consumption. This fact, however, does not appear to have acted detrimentally upon the domestic markets, which, as a rule, have been better cleared of the supply of goods than for many seasons, and generally at remunerative prices.

We have to record a continuance of the extreme ease in money. At all the money centres there has been an ample supply of funds, and the banks of the interior, being unable to fully employ their balances, have allowed their deposits here to accumulate at 4 per cent interest. Most of the currency coming here from the country has been in the form of bank notes, the result being an immense accumulation of that form of currency, which being comparatively useless to the banks has been exchanged freely for greenbacks at ½ per cent discount, or loaned for several days without interest. Although the Treasury increased its currency balance during the month \$7,400,000, yet the banks gained \$6,700,000 in legal tenders between April 30th and May 28th, while on the deposits there was an increase of nearly \$20,000,000, and in the loans an increase of only \$10,000,000. The following statement shows the condition of the banks on May 28th and April 30th, and one year ago:

Loans and discounts	33,200,000 228,000,000	April 30, 1870, \$269,500,000 28,800,000 33,500,000 208,800,000 54,900,000	May 29, 1869, \$274,900,000 17,800,000 33,900,000 203,000,000 57,800,000
Legal Tenders	61,600,000	54,900,000	57,800,000

The abundance of unemployed funds has induced exceptionally low rates of interest: On call loans the rate has been for the most part 4@5 per cent, but considerable balances have been employed from day to day with the bond dealers at 3 per cent. The paper market has sympathized with the low rates on call loans; and all the more quickly from the fact of their having a very light supply of first class paper offered for discount. On prime mercantile acceptances the rate at the close was 5@5½ per cent for 60 days, 5½ @6 per cent for four months, and 5½ @7 per cent for six months; on the same grade of single name rates are about 1 per cent above these quotations. These very low rates on long date paper may serve to indicate the prevailing view as to the future course of the money market.

United States securities have been heavy and banks steady, the prices at the close being about the same as at the opening, notwithstanding that about & per cent interest has accumulated upon the bonds during the month. At London and Frankfort prices have advanced about to the extent of the accrued interest; and the fact of the home quotations not having represented this acquisition of value may be accounted for from the price of gold having declined about 1 per cent during the month. The fact of bonds not having advanced sympathetically with the case in money may be attributed chiefly to the continued pendency of the financial bills before Congress, and the circulation of various unsettling rumors respecting them. Although in the best informed circles there has been no doubt that nothing in the shape of a funding measure will be finally adopted this session, yet so long as the matter remained unsettled the mass of bondholders naturally gave full credit to the possibility that something might be done looking to the reduction of the rate of interest upon the debt. The Government purchased during the month \$6,000,000 of bonds, viz., \$2,000,000 on account of the sinking fund, and \$4,000,000 on account of the special fund for the employment of the surplus revenue of the Government. The total transactions at the Board have teen only \$12,900,000, against \$24,400,000 in May, 1869.

In the stock market there has been a fair degree of general activity. The speculative spirit, however, has been cautious, considering the extent to which operations have been facilitated by the extreme case in money. The business has centred in a few specialties, affected more or less by changes of direction and by reports of intended consolidations or running arrangements with other roads. About the middle of the month there was considerable realizing by the cliques, and prices at the close were consequently lower than at the opening. The more active shares have been Lake Shore, Rock Island, Ohio and Mississippi, Northwestern, New York Central, and Reading.

The following table will show the opening, highest, lowest and closing prices of all the railway and miscellaneous securities sold at the New York Stock Exchange during the months of April and May, 1870:

		May

firmness on the premium, and especially during the latter half of the month, when a considerable amount of specie was exported; but, in the face of this, the price fell from 115% at the opening to 1148 at the close. The fact of the market being so little sensitive to the outflow of specie appears to be due to the idea that, with the present large accumulation of specie in the country, the loss of a portion of the supply would be a healthy movement. The large payments of the Treasury on account of the May interest on the debt, and the sale of \$4,000,000 coin by the Trensury, have increased the supply of gold on the market, so that at the close of the market the banks held \$4,000,000 more specie than at the opening, and \$15,000,000 more than at the close of May, 1869.

[From our own Correspondent.]

London, Saturday, May 21, 1870.

The impression is gaining ground that the money market must become easier, and that whatever course may be pursued by the Bank of England, the rates of discount in the open market will give way to a slight extent. The time is now approaching when the demand for money is generally somewhat slack. During the three months before harvest our importations fall off, and as a rule the larger portion of our supplies of wheat, cotton and grocery produce is paid for. Hence the requirements of importers are less onerous, and the applications for accommodation are less numerous. To some extent an easier tone has been imparted to the money market by the brilliancy of the weather. Whether the continued dryness and prevailing heat are favorable to the growing crops of grain is, I think, doubtful, for it would seem to be evident that young plants require moisture to assist their development. The present week has been very oppressive, but as yet there are no serious complaints. However, capitalists are of the opinion that the harvest promises well, more especially as the value of wheat has tended downwards during the week. Secondly, there has not been that active inquiry for American government bonds, and consequent rapid absorption of European capital. At this period last year money rose to 41 per cent., owing mainly to the belief that the investments in 5.20's and 10.40's were so numerous as to cause an export of bullion from this side. The panic, however, was of short duration, and the price of money soon declined to 3 per cent.-the present quotation. It is expected, therefore, now that the exports of American produce are falling off, that it will be found necessary to ship increased quantities of bullion to Europe. Thirdly, the Indian exchanges are favorable and there is no demand of importance for silver or dollars for shipment eastward. In fact the wants of remitters can be supplied by the Indian Council, which, at the fortnightly sales, offers £400,000 in Council bills. Fourthly, the Paris exchange is so high that sending gold to Paris cannot be done now at a profit. Hence, the supplies of gold as they are received from Australia are refused and sent into the Bank, and a considerable accumulation is now taking place. The circumstances in favor of dearer money are the contemplated and the actual foreign loans; but as these are for railway purposes it is fully expected that the effect will be trifling, because the greater part will be spent here.

As showing the financial strength of the country, it is as well to notice carefully the annexed return, in which a comparison of the pal American securities on each day of the week:

CHANGES IN THE REDEEMING AGENTS OF NATIONAL BANKS Bank's position with former years is afforded. The two most important features are an increase of £3,300,000 in the reserve of notes and coin, and of £3,200,000 in the stock of bullion. The supply of bullion and the reserve are nearly as large as they were in 1868 when the Bank rate was only 2 per cent.:

This week the rates have been somewhat easier in value, and while, three months' bills have been taken more readily at 2% per cent, the demand for long-dated paper has fallen off. There is a good supply of money seeking employment, and altogether the prospect is good. Annexed are the quotations:

The Italian exchange continues to improve, and business has been done as low as 25. There is consequently more confidence in the future of Italian finance. The same remark applies to Spain, the fact that Messrs. Rothschild are about to introduce a losn having imparted firmness to the exchanges with that country. The Paris exchange is as stated above, still sufficiently high to prevent any export of gold, and both silver and dollars are very quiet. The following prices of bullion are from the Circular of Messrs. Pixley & Co. :

It is expected that the new Spanish loan will be brought out next week. It is anticipated that it will be as a five per cent. stock, and that it will be secured upon the Almaden quicksilver mines, which have been worked by Messrs. Rothschild for some time past. As the security is considered good, and as so eminent a firm as the Rothschild's are the contractors, a great success is looked forward to. Report says, indeed, that the subscription list will be only open for one day, so as to avoid the difficulties which had to be encountered in respect of the Russian loan, for which the applications were so numerous,

In the course of a few days a loan of £12,000,000 for Peru, for railway purposes, will make its appearance.

During the last few days business has been quieter in the Stock Exchange, and prices have suffered a slight relapse. There is evidently a panic in the operations of speculators, but at the same time the tone of the market is good. Foreign securities are decidedly higher than they were at the close of last week, while British railway shares have been in steady demand for investment, at somewhat improved quotations. As regards American securities, the two features are a steady demand for government bonds for investment, at firm quotations, and a distaste for American railways. Such a condition of affairs will assuredly last so long as the Eric mystery is unravelled. The value of Illinois Central Railway shares, however, is well maintained. The following are the highest and lowest prices of Consols and the princi-

Railway extension in India continues to absorb attention, and this week the Directors of the Great India Peninsular Railway Company have received power to issue £3,000,000 of additional capital in £20 shares, at £1 per share premium. The shares will bear 5 per cent interest.

Notwithstanding the continued dry weather and high temperature, and notwithstanding also that the reports from some parts of the country are not encouraging, it being stated that the plant is thin, the wheat trade has had a drooping tendency. These adverse reports, however are counterbalanced by accounts of a favorable character, the prospect in the wheat growing districts, viz: in the Eastern, Southeastern and Southern counties being encouraging. The unprecedented dry weather at this period of the year is beginning to cause anxiety, and, no douot, a steady soaking rain would exert a most beneficial influence. There is but a poor prospect for the hay crop, and it is considered that under any circumstances the yield will now be light. The following have peen the imports and exports of cereal produce for this and the previous season:

FOR THE WEEK ENDING MAY 14.

The cotton trade has been quieter, and prices are rather lower. The stock of cotton in Europe, including the supplies of American and Indian produce ascertained to be affoat is now 1,185,332 bales against 1,243,403 bales last year. The following relates to the trade of Manchester:

Chester:

The market has remained very quiet during the entire week, and less than an average business has been done. Prices have not given way materially, although the tendency has been in favor of buyers, but the previous contracts in the hands of producers have enabled them to resist the downward tendency to a considerable extent, and there has been no undue pressure to sell. In fact, neither spinners nor manufacturers have been in a position to make early deliveries, and buyers have been disinclined to give our further orders for distant delivery, unless they could get a decided advantage in price. Yesterday and to-day the tone of the market has been fully as steady as it was in the early part of the week, but this better feeling has not been accompanied by any macrial increase of business.

Several circumstances have contributed to the quietness of the market this week. The large receipts of cotton reported at Bombay and the American ports, as well as the imports into Liverpool, amounting in themselves to 120,000 bales for the week, have deterred spinners from buying more than was sufficient for their immediate requirements, and they have only taken 46,000 bales. The prospects of trade are not good enough to induce them to lay in stocks of cotton. In fact, the trade of spinners and manufacturers is anything but good, and it is only those who have the advantages of the best and newest machinery who can make ends meet, not to speak of working to a profit. The shipments to India and China have been so large since the beginning of the year that a nervous feeling prevails lest they may have been overdone. At all events, there is nothing in late advices from the great Eastern markets to induce merchants to go on shipping at full rates, to the same extent which they have not been without their influence in keeping the market quiet.

In the woollen trade there has been a fair degree of activity, and

In the woollen trade there has been a fair degree of activity, and iron remains very firm.

A scheme for the reorganization of the Atlantic and Great Western Railway has been issued by the president of the line, and it propose that a foreclosure should be obtained and that the railway should then on behalf of all the creditors, be transferred to Gen. McClellan, Mr. Duncan, of Duncan, Sherman & Ca., and the Hon. A. J. Thurman, United States Senator for Ohio. This proposal has had a good effect, and the shares have already improved in value.

English Market Reports-Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week, have been reported by submarine telegraph as shown in the following summary.

London Money and Stock Market .- The market for Consols has been steady, quotations showing a little change; United States securities have been steady throughout the week, closing dull; Atlantics and Great Westerns showing an advance, and Illinois Centrals showing a decline,

GEO. S. BOUTWELL, Secretary.

Millwaukee & St. Paul Railway Co .- Annual Report for YEAR 1869.—The directors submit to the stockholders this, their Sixth Annual Report, showing the condition and operation of the Company for the year ending December 31st, 1869.

The railway owned by this Company is in length, exclusive of side tracks, 917 miles. On the 1st of January, 1869, the Company had 825 miles, which was increased during the year, 92 miles, as follows:

miles, which was increased during the Jear, of inner, as inner,	
June 1st	11 Miles.
Angust 1st. September 1st. October 1st.	27
September 1st.	29
October 1st	25

The average for the year, of the number of miles owned by the com-

pany is 858 miles.

The details relating to the distances are as follows:

Milwaukee to St. Paul, via Prairie du Chien	405	Miles.
Milwaukee to La Crosse, via Watertown	95	**
Horicon to Berlin and Winneconne	58	44
Watertown to Madison	37	**
Calmar to Nora Springs		64
Corover to Decord	10	44
Mendota to Minneapolis	9	

The comparative earnings, expenses, and general condition of the company are as follows:

	1869.	1868.		
Gross earnings	7,250,669	\$6 517,646	Inc.	733,023
Operating expenses		4,033,041	Inc.	196,841

Gross earnings per mile	8,450	7,900	Inc.	550
Value of supplies, &c. Dec Stat.	398 072	869 882	Dec. 1	186.810

The stockholders having authorized the same, the directors declared a dividend from the earnings of 1869, payable February 15th, 1870, on the preferred stock of \$7 per share in cash, and \$8 per share in common stock, and on the common stock \$3 per share in cash and \$7 per share in common stock. The dividend so declared increased the capital non stock, and on the common stock \$3 per share in cash and \$7 per share in common stock. The dividend so declared increased-the capital stock \$828,900 from February 15th, 1870, and, of course, adds to that extent to the present cost of the railroad and property owned by the company, making the present cost \$35,370,772, or say \$37,800 per mile. During the year 1869, the directors made large expenditures in effecting improvements and in acquiring additional property, not charged in operating expenses, to the amount of \$1,681,533,18.

These large expenditures were deemed necessary by the directors to give increased permanent value to the road.

Having completed certain improvements and paid therefor from the earnings of the road for 1869, the policy of the directors in future will

Having completed certain improvements and paid therefor from the earnings of the road for 1869, the policy of the directors in future will be to divide the net earnings in cash to the shareholders.

The Milwaukee & St. Paul Railway Company are not now engaged in the construction of any railroad, and they have no floating debt.

New Connections.—McGregor & Missouri River Railway Company.

We have received from the McGregor & Sioux City Railway, under our contract with them during the past way, when 18 g miles of railway, under our contract with them during the past year, about 65 miles of railroad, viz: from Calmar to Nora Springs, and expect to receive from them during the year 1870, the road from the latter place to Algona, about

63 miles.

It is not the intention of this Company to accept or receive from the McGregor Company, any further portion of their line, beyond that already mentioned, unless it shall appear that the business of the adjacent country will fully justify its extension.

The West Wisconsin Railway Company have extended their road from Tomah to Augusta, about 66 miles. We continue to operate the road under a lease, determinable at the will of either party. The road, it is believed, will be extended to Ean Claire, 25 miles, during the present year.

it is believed, will be extended to Eau Chart, 25 hours, date in resent year.

The Cedar Falls & Minnesota Railroad has been built from a point on the Dubuque & Sioux City Railroad, to the Minnesota State line, about 75 miles, where it connects, by the Minnesota Central Railroad at Austin, 12 miles, with the line of this Company, thus opening to us the interior of Iowa, to which we will carry large amounts of lumber, and receive by the return cars, coal and the products of the country.

The Southern Minnesota Railroad Company have built, during the mast year, about 40 miles of road, commencing near Austin, on our

past year, about 40 miles of road, commencing near Austin, on our line of road, and running westerly. They propose to continue the con-struction in the same direction and complete about 70 miles during the

coming year.

The Hastings & Dakota Railroad now extends westerly from Hast-

The Hastings & Dakota Railroad now extends westerly from Hastings, about 30 miles, crossing our line at Farmington. During the past year, 12 miles were built, and the company expect to reach the Minnesota river, about 20 miles further, during the year 1870.

The St. Paul & Sioux City Railroad Company, formerly known as the Minnesota Valley Railroad, is understood to have been leased to the Lake Superior & Mississippi River Railroad Company. The latter company constructed about 95 miles of their line during the past year, and expect to complete the remaining portion, about 55 miles, within and expect to complete the remaining portion, about 55 miles, within

and expect to complete the remaining portion, about 55 miles, within the coming season.

The St. Paul & Pacific Railroad was extended northwesterly from Minneapolis, during the year 1869, to Litchfield, about 90 miles. It is being rapidly extended to Breckenridge, on the Red River of the North, a distance of about 180 miles from Minneapolis. The company are also extending their branch line from Sauk Rapids to Crow Wing, about 50 miles, which they expect to complete within the year 1870. From the latter point they propose to extend the line to the Winnepeg District, about 300 miles.

The Northern Pacific Railroad will extend, when completed, from Lake Superior to the Pacific Ocean. It is understood that this company has secured the means, and propose, during the coming year, to build about 200 miles, which will carry them to the west boundary of Minnesota. It is also reported that the company have reasonable prospects for securing the entire sum necessary to complete the read to the

pects for securing the entire sum necessary to complete the read to the

Pacific Ocean. It is unnecessary to speak of the additional value which the completion of this great line will have upon your property.

The St. Paul & Chicago Railroad Company are engage t in building their road from St. Paul southerly along the west bank of the Missispipi River. They built, in 1869, from St. Paul to Hastings, 20 miles, and expect, during the present year, to extend the line from Hastings to Red Wing, about 20 miles, and from Winona to Minnieska, about 12 miles.

THE WESTERN UNION RAILROAD .- This road extends from Racine to Port Byron, on the Mississippi River, 182 miles, and by connecting lines, is in connection with the cities of Rock Island and Davenport, lines, is in connection with the cities of Rock Island and Davenport, and at Fulton intersects the Chicago and Northwestern Railroad. In the month of September next, it will be connected with this road by a branch from Eikhorn to Eagle, a distance of about 16 miles. This connection will open for the traffic of this company, the business of many thriving cities and villages in Wisconsin and Illinois, and the richest coal and grain growing districts in the latter Sate. In connection with our road, it furnishes the shortest and most direct route to Eagle and Rock Island for the western and northern parts of Wisc Fulton and Rock Island for the western and northern parts of Wisconsin. It will bring to us the transportation of corn, cont and other products of that section of the country, but little of which has ever sed over the line of our road.

It will be seen that about 1,000 additional miles of road will probably be brought into use, or connected with our lines, during the year 1870, from all of which we may reasonably expect a large and profit-

The stockholders, pursuant to a law of the State of Wisconsin at their annual meeting in June, 1869, divided their directors into three classes, to hold their offices respectively for one, two and three years.

Railway Aid in Michigan, .- The Railway Review has the following upon this subject:
"We have already referred to the importance of the case, in rela-

tion to the Detroit & Howell Railroad Company, pending in the Supreme Court of the State, which involves the constitutionality of the special act, and the general railroad aid laws of that State. The judges of the court, in view of the interests involved, have ordered a rehearing of the case, that every fact and principle may be before them. From statistics given in the Detroit Tribune, we compile the following table shaping with approximate corrections the finescial them. From statistics given in the Detroit Tribane, we compile the following table, showing with approximate correctness, the financial status of new enterprises, so fit as they have received public aid, on May 1st. The total voted by towns and counties may be roughly estimated at more than \$6,000,000. Of this aggregate \$1,750,000 bonds were voted upon various conditions specified in their respective enabling acts, to live corporations; and the balance \$4,250,000, in strict accordance with the terms of the general law of 1869. Of the latter, \$3,600,000 has been deposited with the State Treasurer. The company have thus far received \$1,744,955 in bonds. Of these \$37,000 are paid; \$118,000 remain in their possession, the balance is in the hands of third parties. This \$1,589,955 has been taken by capitalists and corporations, by contractors and employers, by people of all hands of third parties. This \$1,589,955 has been taken by capitalists and corporations, by contractors and employers, by people of all

and corporations, by contractors and employers, by people of all classes and sections.

The case was to-lay decided, as we learn by special dispatch, adversely to the constitutionality of the law. It was held that railways are not public objects; that the State cannot itself, under the constitution of Michigan, levy taxes for the aid of railway enterprise; nor can it authorize municipalities to do what it cannot do itself.

The Legislature will probably, in extra session submit an amendment of the great that the reset itself.

The Legislature will probably, in extra session submit an amend-ment to the constitution making valid the bonds.

Total.... 143 3,549,880 1,445,955 1,399,955 299,000 190,000 -Messrs. James T. Brady & Co., bankers in Pittsburgh. Pa., whose —Messrs, James T. Brady & Co., bankers in Pittsburgh, Pa., whose card will be found on the first page, have recently gone into their new and handsome building on the corner of Wood street and Fourth avenue, which is spoken of by a leading paper of Pittsburgh as follows: "It has a front on Wood street of sxty feet and a depth of forty feet running parallel with and fronting Fourth avenue, the corner being rounded off gracefully, to lend effect to the general proportions of the building. From the pavement to the roof it is sixty-four feet bigh.

of the building. From the pavement to the roof it is sixty-four feet high.

The house of James T. Brady & Co. may be ranked among the oldest banking institutions in the city. The house was originally established in 1837 by Sibbett & Jones, who were in turn succeeded in 1848 by S. Jones & Co. Iu 1866 James T. Brady & Co. succeeded the latter firm, so that the same house, in an unbroken chain of succession, reaches as far back as 1837. To-day the firm stands second to none in the country in the matters of financial management and sound reputation, and in this view it especially commends itself to the confidence of the rubble. of the public.

—Since the last issue of the Chronicle, one of the leading events of the street has been the formation of the new Stock Commission House of Messrs. Kenyon, Cox & Co., with Mr. Daniel Drew as special partner, by the contribution of \$300,000 special capital. Messrs. Cox, Manuel & Hutchinson, the general partners, were members of, or connected with the late firm of Robinson, Cox & Co. The strength of the firm is quite as apparent from the names of its members and the amount of its capital.

—Messrs. Thomas Denny & Co., Bankers, 39 Wall street, have favored us with a copy of their annual finencial circular for the year 1869, containing the fluctuation in prices, and general information as to the character of the various issues of stocks and bonds sold in this market. Messrs. Denny & Co. have also published in a neat book shape their annual circulars since 1881. We believe that these are furnished at a reasonable price at the office of the firm, \$9 Wall street, and the information contained in them is of a very interesting character.

—We take pleasure in calling the attention of the readers of the Chronicle to the card of Mr. Theodore Berdell, banker and broker, at

No. 3 Exchange Court, in Exchange Place. Mr. Berdell will give attention to all the ordinary business of buying and selling securities or

-Messrs. Corne & James, stock brokers, at No. 28 Broad street give notice to the public by their card in another column that they are prepared to attend promptly to all business in the way of buying and selling stocks, bonds, governments, or gold on commission.

—Mr. George M. Hardt.

-Mr. George M. Hard has been appointed cashier of the Chatham National Bank, in this city, vice O. H. Schriner, resigned.

FRIDAY EVENING, June 3.

THE MONEY MARKET .- We have no change to report in the general aspect of the money market, except, perhaps, a slight increase in the ease noted for some weeks past. The last weekly statement of the banks showed an increase of \$2,90,000 in the legal tenders, and an addition of 1,500,000 in the net deposits, while in the loans there was a decrease of 710,000, which indicates an easier condition of the market. The following items, showing the whole of the last statement of the Associated Banks, compared with the same period of last year, indicates a greater abundance of loanable reserves in the banks than a year ago:

•	May 28, 1870.	Ms
Loans	\$279,500,000	2
Circulation	200, 2010, 0000	
Legal Tenders	61,690,000	

At some of the Western cities there is a more active demand for money, and the supply of exchange on New York is increasing. As yet, however, there has been no drawing of currency from this city, although this change may, perhaps, be regarded as the begin. ing of a movement which will gradually grow and result before long in the shipment of currency to the West. The supply of money on call is very abundant, and rates are maintained with some difficulty at 4@5 per cent, with occasional transactions at 3 per cent on governments.

Rates of discounts are lower than for many months past; tle result not merely of the abundance of money but of an unusually light supply of paper. Prime acceptances, running 60 days, are current at 5@51 per cent, and even 6 months paper of this grade is readily taken at 5107, which indicates the prevailing view as to the future of the market. The paper of leading foreign bankers is current at 41 @5 per cent. There is a good amount of paper on the market issued by domestic bankers, running 3 to 4 months, and in some instances indorsed by the current new railroad enterprises; this passes at 7@10 per cent. The following are the rates for the various classes of paper :

Commerc	cial, first clas	s endors	sed 60 days	5 p. c. to 5%
**	* 6	66	and	
66	66		4 mos.	536 to 6

44	second cla		4 to 6 mos.	7 to 8
Rankova	Brecond Cit	188	3 to 6 mos.	8 to 18
SALIKOIB,	mist class F	oreign		4% to 5

Domestic.....3 to 4 mos. UNITED STATES BONDS .- The bond market "has been dull and without material variation. The near approach of the period for the Committee of Ways and Means reporting the funding bill very naturally produces an indisposition to operate in this class of sccurities; and, as on all such matters, there is a disposition to discount the most unfavorable probabilities there is a preponderance of sellers over buyers. The latest advices lead to the belief that the Ways and Means Committee will report a bill authorizing a four per cent thirty years bond free from all taxation, and without any clause bearing oppressively upon the banks. Those, however, best acquainted with the views of the framers of the bill consider that the bill is designed rather to signify the ultimatum upon which the government will treat, than as a measure which is expected to go into early operation. If this be the object in the reporting of the bill, and we are disposed to think that it is, its passage is not to be regarded as having any immediate practical significance. As the public do not entertain this view of the quesion, they are, of course, sellers of bonds rather than buyers. The

fact of the government proposals yesterday to buy \$2,000,000 of bonds, drawing out offers aggregating the large amount of \$6,595,-650, was due mainly to this cause. To-day the rejection of a prcposal fin the House to tax United States bonds by a very large majority had the effect of producing an advance of three-eighths in the price of bonds, and the market closes strong.

The following were the highest and lowest prices of leading ent securities at the Board on each day of the past week:

1865 con	931 000		1868. COII	2,000	

The Treasury purchases during the month of June \$8,000,000 of five-twenty bonds.

STATE BONDS .- This class of securities has been without special interest, the leading feature having been the new Tennessees, which have arisen from 561 to 581. This demand was principally for the purpose of covering previous speculative sales. It is generally belie ed that the Legislature now in session will pass a resolution to fund the bonds into a new issue, the bonds to be funded to be received at their original market price. The old bonds ranged at 611-062. The North Carolinas were in moderate inquiry at 49@491 for the old, and 25@251 for the new issues; Missouri sixes were strong at 94@941, the Hannibal and St. Joseph issue passing at the same price. South Carolina bonds were dull and barely steady, the Louisiana securities having been quiet. Georgia seven's were firm at 951, and Alabama eights at 1021.

The following are the highest and lowest prices of the most active State Bonds at the Board on each day of the past week:

	Satur		Mor	nday,	Tue	sday,	Wed	nesd'y	Thu	rsday e 2.	Jun

* This is the price bid and asked, no sale was made at the Board.

RAILBOAD AND MISCELLANEOUS STOCKS .- The stock market continues active, and without any special fluctuations in prices. After the realizing by the cliques, noted in our late reports, there appears to have been a free buying back, and the market is now making a second advance, preparatory to another selling out. The extreme ease in money is adverse to any attempt to force down the price of stocks and encourages buying when any pretence is presented for an advance. The result of certain railroad elections this week has encouraged a very firm feeling on the stocks directly affected. Rhode Island and Northwestern are now substantially under the same control, and the parties controlling those roads are understood to be in harmony with the Vanderbilt party, who now control not only New York Central but also the Lake Shore read, and from these facts some sort of arrangements for a through route from New York to Omaha are apticipated in the comparatively early future. Rhode Island has been especially firm, advancing from 1184 to 1214. Northwestern has advanced upon the result of the election, from 811 to 841. Reading has risen from 1058 to 1(9; Ohio & Mississippi from 387 to 42, and Pacific Mail from 41 to 448.

The following were the highest and lowest prices of the active list of railroad and miscellaneous stocks on each day of the last

THE GOLD MARKET .- There has been rather more speculative interest in gold, but no vigorous movements, operators being rather disposed to follow the current than to force it; which, with the present supply of gold in the market, is no easy matter Although the foreign exchanges have very decidedly favored the shipment of specie, and a good amount of bullion gold has been exported, the market has been slow to sympathize with the tendency. There is some hesitation about buying for a rise, notwithstanding the possibility of a free shipment of specie during ensuing weeks, so long as the reception of the currency bill by the House remains a matter of uncertainty; and an uncertainty it cannot but be, to the public mind, so long as a host of dispatches are sent from Washington every day for the express purpose of making the prospects of the measure obscure. The "shori" interest has been considerable during the week, a large amount of gold having been loaned "flat," i. e., without interest either to borrower or lender; to-day, however, 11,03 perseent was paid "for carrying," which indicates that the outstanding "short" contracts have been reduced in amount. The Treasury sold on Wednesday \$1,000.000 coin, the total bid for being \$1,000,000. The total sales announced for June amount to \$5,000,000.

The following table will show the course of the gold premium each day of the past week:

Foreign Exchange.—There has been considerable activity in foreign bills, and, owing to the scarcity of commercial bills and the active demand for settlements at the beginning of t e month, rates have advanced to 1694@110 for prime bankers 60 days' sterling.

The Railway Monitor.

EXPLANATION OF THE STOCK AND BOND TABLES.

1. Prices of the Active Stocks and Bonds are given in the "Bankers' Gazette" ante; quotations of other securities will be found on the pre-

2. Quotations of Southern Securities are given in a separate

2. Quotations of Southern Securities are given in a separate Table.

3. No reliable prices of Insurance Stocks can be made.

4. The Table of Railroad, Canal and Other Stocks, en the next page, comprises all Companies of which the stock is sold in any of the principal cities (except merely local corporations). The figures just after the name of the company indicate the No. of the Chronicle in which a report of the Company was last published. A star (*) indicates leased roads; in the dividend column x=zatra; ==stock or scrip.

pany was last published. A star (*) indicates leased roads; in the dividend column x=extra; =stock or scrip.

5. The Tables of Rallroad, Canal and Other Honds occupy in all, four pages, two of which will be published in each number. In these pages the bonds of Companies which have been consolidated are frequently given under the name of Consolidated Corporation. The date gives in brackets immediately after the name of each Company, indicates the time at which the statement of its finances was made. In the "Interest Column" the abbreviations are as follows: J. & J.=January and July; F. & A.=February and August; M. & S.=March and September; A. & O. April and October; M. & N.=May and November; J. & D.=June and December. Q.-J.=Quarterly, beginning with January; Q.-F.=Quarterly, beginning with March.

March.

6. The Table of United States and State Securities will be published monthly, on the last Saturday of the month.

7. The Table of City Bonds will be published on the third Saturday of each month. The abbreviations used in this table are the same as those in the tables of railroad bonds mentioned above. The Sinking Fund or assets held by each city are given on the same line with the name.

Wilmington and Manchester Railroad .- The following no.

tice is of interest to the holders of the bonds of this company:

M. K. Jessup, et al., vs. The Wilmington and Manchester Railroad Company, et als.—Pursuant to an order of the Superior Court of New Company, et als.—Pursuant to an order of the Superior Court of New Hanover county, made in the above entitled cause at the spring term, 1870, at presentation at the office of Cronly & Morris, in this city, I will pay to the holders of the first preferrel bonds, secured by the mortgage made by the defendant, the said Wilmington and Manchester Railroad Company, to the plaintiff, M. K. Jesup, who have not already received the same, a per centage of \$30.72 on said bonds and accrued interest on the same, being dividend for distribution, as aforesaid, from net sales of that portion of the railroad and other property. said, from net sales of that portion of the railroad and other property covered by said mortgage, which was in the State of North Carolina. In further obelience to the order made as aforesaid, I hereby notify all In further obelience to the order made as aforesaid, I hereby notify an holders of the bonds above referred to that unless the same are presented to be a sabove for payment of the dividend above stated on or before the first day of September, 1870, they will be forever debarred from any participation in the said fund in my hards for distribution as aforesaid.

M. CRONLY, Commissioner and Referee.

Wilmington, N. C., May 16, 1870.

The Tennessee Railroad Bonds.—Knoxville, Tenn., June 2.

A special dispatch from Nashville says that the bill in favor of the repudiation of the 100 bonds issued to the Mineral Home Railroad has passed to a second reading. The bill to stop pay-Railroad has passed to a second reading. The bill to stop payment of 885 bonds to the Tennessee and Pacific Railroad also passed, and both are made the special order for Wednesday. The report of the Judiciary Committee advocates repudiation, because the bonds were illegally issued and sold below par.—N. Y. Times.

The Hartford and Eric Railroad .- Boston. June 2. House this afternoon, by 16 majority, passed, with slight modifications, the new bill offered by Mr. Goodrich, extending State aid to the Boston. Hartford and Erie Railtoad. The important feature of the new bill is that it proposes that the State shall give up the Berdell bonds it now holds as collateral, to be used with an equal amount contribute to by the other bondhollers for the completion of the road to Fishkill, by the other bondhol!ers for the completion of the road to Fishkill, the State and others receiving instead an equal amount of the bonds of the second mortgage. The bill also provides for the reorganization of the Company to meet the approval of the Governor and Council; for satisfactory contracts to finish the road within the amounts already named; for the settlement of all claims and attachments upon the property with the interest accruing till July, 1872, by means of the second mortgage bonds, and for the necessary ratification and acceptance of the act.—N. Y. Times.

West Wisconsin.—The Eau Claire Free Press says the engineers for the West Wisconsin Railroad have declared the route via River Falls to Hudson or Prescott impracticable, hence the road will cross just above Menomonie village, and continue on direct to Hudson. This route is almost an air line, making twelve miles north in going sixty-

Central Pacific.—The company have finally purchased the California Pacific Railroad, and will take possession in June. This will reduce the passenger time overland several hours. The Central now controls the railroad system of the Pacific coast.

Atlantic and Great Western Railway.—A reference to the new plan proposed for the benefit of the bond and debenture holiers will be found in our London letter on a previous page.

—The Chicago and Alton Railroad Company have executed a perpetual lease of the Louisiana and Missouri River Railroad, which will give Chicago a direct line to Fort Scott. The company will immediately commence the construction of a road from Jacksonville or White Hall, Illinois, to the Mississippi River, where the trains will connect, by transfer boats, with the Louisiana and Missouri River road for Kansas City and St. Joseph. Branches will also be built through Glasgow or Boonville to Sedalia.

—Messrs. Lawrence Bros. & Co., Bankers, 16 Wall street, give notice in our advertising columns that the loan of the Cleveland, Mt. Vernon and Delaware Reilroad Company, recently offered by them, having been disposed of to a large extent, will now be withdrawn from the market.

—The stockholders of the Utica, Chenango and Susquehanna Rail-road Company have ratified the lease of their road to the Delaware, Lackawana and Western Reilroad, and voted to increase the stock to \$3,000,000.

-The bill of Congress confirming the large grant of lands to the Northern Pacific Railroad, has become a law by the signature of the President.

-The North Missouri railroad will be completed to Ottumwa, Iowa, by the 4th of July.

For other Railroad Items, see COMMERCIAL AND MISCEL-LANEOUS NEWS, on a previous page.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, May 27.

Trade in some particulars shows a partial improvement in volume, if not in prices. Domestic products have been somewhat affected by the advance and upward tendency in ocean freights, which follow the free arrivals of grain by canal. But in foreign merchandise the feeling is almost uniformly better, although a slight decline in gold has occurred.

The following is a statement of the stocks of leading ar ticle of foreign and domestic merchandise at dates given:

	1869.	18	76
	June 1.	June 1.	May. 1.
Beef, tierces and barrels	39,547	18,140	22,592
Pork, barrels.	50,779	30,906	31,283
Tobacco, foreign, bales	14,996	19,141	17,908
Tobacco, domestic, hogsheads	22,044	17,800	13,750
Coffee, Rio, bags	126,687	43,180	16,757
Coffee, other, bags	41,878	23,500	13,375
Coffee, Java, mats	45,228	35,92)	51,447
Sugar, hogsheads	96,645	87,212	88,684
Sugar, boxes	135,280	99,632	96,889
Sugar, bags.	102,802	339,000	323,234
Melado, hhds	952	1,822	1,927
Molasses, hogsheads	11,898	17,387	20,550
Molasses, barrels	168	****	345
Hides, No	173,000	124,300	76,000
Cotton, bales	63,600	48,000	50,000
Rosin, barrels	37,400	26,400	29,400
Crude turpentine, barrels	425	250	389
Spirits turpentine, barrels	1,495	1,800	1,715
Tar, barrels	8,100	29,200	33,818
Rice, E. I., bags	20,640	1,280	2,200
Rice, Carolina, casks	3,246	1,257	3,857
Gunny Cloth, bales	24,800	7,150	7,200
Gunny Bags, bales	17,859	5,650	5,930
Linseed, bags	45,755	93,000	117,300
Saltpetre, bags	14,900	10,200	10,000
Jute, bales	22,200	19,700	11,150
Manila Hemp, bales	1,577	22,800	23,200

Hides have been active at the recent decline for dry, and leather more steady. Tallow unchanged.

Naval Stores inactive, and prices somewhat unsettled. Oils have ruled quiet, except for Linseed Oil, which advanced 2c., with a large demand. Petroleum active, but closing rather weak.

Metals are firm, with some activity in Tin, and an upward tendency in Copper.

Building materials are generally a shade firmer. Fruits and fish steady. Hops dull, but firm. Hay dull. Whiskey moderatively active and closing firm.

Provisions have been dull for hog products, and prices have been barely supported. Beef of all kinds in light stock, and brings very full prices. Butter and cheese have largely declined and close unsettled, but with holders showing rather more firmness.

Wool has been without movement of importance, except in

new spring clip California at 26@29c.

Freights have been more active, and rates have slightly advanced. The shipment of grain to Great Britain have been large, with considerable quantities going to the Continent. The petroleum charters have also been numerous at improving rates. To-day the market was dull for grain freights, with the Liverpool shippers asking 6d., but we notice shipments of 1,700 bales cotton at 5 32d. by sail, and \(\frac{1}{4}\)d. by steam

Receipts of Domestic Produce for the Week and since Jan. 1.

The receipts of domestic produce for the week and since Jan. 1 and for the same time in 1869, have been as follows:

COTTON.

FRIDAY, P.M., June 3, 1870

By special telegrams received by us to-night from the Southern ports we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening June 3. From the figures thus obtained it appears that the total receipts for the seven days have reached 22,441 bales (against 30,737 bales last week, 44,055 bales the previous week, and 38,286 bales three weeks since), making the aggregate since September 1, 1869, up to this date, 2,772,432 bales, against 2,046,851 bales for the same period in 1868-9, being an increase this season over last season of 725,581 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1869 are as follows:

RECEIPTS. Rec'd this week at—	1870.	1869.	RECEIPTS. Rec'd this week at—	1870.	1869.
New Orleans, bales Mobile. Charleston	9,284 2,311 1,598 2,646	2,570 1,217 1,570 1,745	Floridabales. North CarolinaVirginia.	54 247 1,281	12 181 1,264
Texas Tennessee, &c	1,016 4,009	893 2,269	Total receipts Increase this year	22,441 10,730	11,711

The exports for the week ending this evening reach a total of 36,160 bales, of which 31,946 were to Great Britain and 4,214 bales to the Continent, while the stocks at all the ports, as made up this evening, are now 276,080 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us from the various ports to-night:

	Expor	ted to-	Total this	Same w'k	Stoc	k.
Week ending June 3.	G. Brit	Contin't	mrools.	1869.	1870.	1869.

Total Total since Sent. 1	31,946	4,214 647,567	36,160	15,261	276,080	139,932

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 16,685 bales, while the stocks to night are 136,148 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1, to May 27, the latest mail dates. We do not include our telegrams to night, as we cannot insure the accuracy or obtain the detail necessary, by telegraph.

The market the past week has continued dull and declining. Now that the India cotton has begun to come in freely, and the weekly shipments from Bombay to be in excess of the same weeks of last year, the remaining prop to prices has given way and holdweekly shipments from Bombay to be in excess of the same weeks of last year, the remaining prop to prices has given way and holders appear to be inclined to supply freely whatever demands presents itself, although the stock offering is not heavy. But on the other hand buyers are very shy, almost nothing being done for export, while spinners are only supplying their more pressing wants. During yesterday and to-day the market has been unfavorably affected by the failure of certain parties to protect their contracts for futures, resulting in a considerable amount being thrown upon the market for sale, depressing prices largely for forward delivery cotton, so that yesterday at one time there was quite a paniky feeling prevailing. To-day, however, the market has been further depressed by rumors of very large shipments this week from Bom bay and very dull Liverpool accounts, and the close is heavy, though prices are very little changed since yesterday. The sales for forward delivery reach 12,800 bales (all low middling or on the basis of low middling), of which 300 bales were for May, 200 at 21½, 100 at 21½; 2,950 bales for June, 200 at 21 2.100 at 21½; 100 at 21½, 100 the closing quotations

The Growing Crop.—Along a belt of land running through South Carolina and into Alabama the progress made by the cotton plant has not hitherto been quite as favorable as up to the same period last year, though little damage which fine weather could not make good was done. In the section named, the weather has been cold and unusually dry, and a very limited portion of the land in cotton, where the seed failed to come up as soon as expected, was replowed and put down in corn. With this exception, we believe, the condition of the growing crop throughout the whole cotton belt is unusually satisfactory, and during the past week even that backward section has been greatly benefited by timely rains. The fields are reported to be clean of weeds and the hands are working well. Our advices from Texas are especially favorable, showing very rapid growth, and giving promise of extremely favorable results.

American Cotton—How Distributed.—We have now reached

AMERICAN COTTON—How DISTRIBUTED.—We have now reached so near the close of the cotton year that the results of the season can be stated with considerable accuracy. The crop for the year ending Sept. 1. 1870 will be about as follows:

Receipts at the ports up to May 27. Receipts from May 27 to Sept. 1 (last year 85,000) Overland direct to mills this year.	170,000
Total receipts. Consumed South.	

bales, which is an estimate based upon returns received up to April 1st, and cannot be far out of the way. Taking then the total crop at 3,237,000 bales, it will be distributed about as follows—our spinners (including Southern consumption at 90,000 bales) will require (according to the estimate of the manufacturers' association) about 930,000 bales. The exports up to last Friday reached 1,923,433 bales, which leaves about 383,567 bales for increased stock and for export during the summer, as may be seen in the following state-

otal crop as above, bales	
Exported to May 27. 1,923,433	2,853,433
eaving supply for balance of yearay increase of stock	
alance for export from May 27xports last year after June 1	333,567 85,000
	_

up to September 1 might be in excess of the above,

STOCKS OF COTTON AT INTERIOR TOWNS.—Below we give the figures received to night, showing the stocks of cotton at the interior ports at the close of business to-day, and add those for last week and the corresponding periods of last year for comparison:

These figures indicate an increase in the cotton in sight to night of 202,750 bales compared with the same date of 1869.

GUNNY BAGS AND CLOTH.—Cloth continues to be firmly held and in active request most of the week, though the close is rather quiet. Sales have been 382 bales, at 30c., duty paid; 200 bales, 20c. gold, in bond; 150 bales on private terms; 250 bales to arrive per Childers, at 20c. gold, in bond, and 100 bales Borneo to arrive, at 21c. gold, in bond; also 2,000 bales domestic, at 30c. currency, and 600 do. on private terms. The stock in the country, as given in the circular of Messrs. J. C. Rogers & Co., dated June 1, is 6,520 bales, and same time last year 24,300 bales. Bags have also been quiet during the week, but prices are held with even more firmness, and holders show even greaters confidence than before. Sales are quiet during the weck, but prices are held with even more firmness, and holders show even greater confidence than before. Sales are 400 bales at 154c., 400 bales at 16c., both gold in bond. Stock here, as given by same authority, is 5,520 bales. We quote 42@45-inch cloth at 30@304c. currency, duty paid; 20@21c. gold in bond to arrive; Borneo, 32c. currency and 21@22c. gold in bond; Domestic, 30@32c. Bags—440's are quoted at 23@24c. currency, duty paid, and 16@164c. to arrive.

delphia and Bultimere for the last week, and since September 1, 1869 :

Shipping News.—The exports of cotton from the United States tl & Shipping News.—The exports of cotton from the United States tile dast week, as per latest mail returns, have reached 38,136 bales. So far as the Scithern ports are concerned, these are the same exports reported by telegraph, and published in the Chronical last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifest only up to Tuesday night, to make the figures correspond with the official week. Below we give a list of the vessels in which these shipments from all ports, both North and South, have been made:

New York-To Liverpool, per steamers Idaho, 3,814 Cuba, 486	
Samaria, 289 Batavia, 208 City of Parts, 698 Erin 1 486	6,981
To Bremen, per steamers Bremen, 296 Main, 102 Smidt, 150.	548

The sales during the week of ready cotton sum up to 11,000 candies; and, in addition, about 1,000 candies have changed hands for future delivery. Weekly shipments to Liverpool and Havre, via Cape, 33,000 bales. Weekly shipments to Liverpool and Havre via Suez Canal and overland. 29 000 bales.

MADRAS, May 16 .- New Western cotton 84d per lb cost and freight.

TOBACCO.

FRIDAY, P. M., June 3, 1870.

There is a further increase in the exports of crude tobacco this week, the total from all the ports reaching 2,873 hhds, 670 cases, 305 bales, 2,110 ceroons and 209 hhds stems, against 2,634 hhds, 674 cases, 650 bales and 34 hhds stems for the previous seven days. Of these exports for this week 1,229 hhds, 670 cases, 228 bales, 2,110 ceroons and 59 hhds stems were from New York; 1,023 hhds, 46 bales and 150 hhds stems from Baltimore; 36 hhds and 31 bales from Boston; and 585 hhds from New Orleans. The direction of the shipments of hhds was as follows: To Amsterdam, 793; to Lisbon, 722; to Gibraltar, for orders, 585; to Liverpool, 90; to London, 58; to Bremen, 295; to Rotterdam, 230, and the balance to different ports. During the same period the exports of manufactured tobacco reached 56,459 lbs., of which 20,419 lbs. were to London. The full particulars of the shipments from all the ports were as follows:

The market the past week has shown dullness and depression in all descriptions of crude Tobacco.

Kentucky Leaf has been dull and unsettled. Stocks are now accumulating rapidly; holders are firm and are favored by the prevailing ease in the money market, but buyers still fail to meet them to any extent, and the business is far below the weekly average at this stage of this season. The sales for the week are only about 500 hids, of which about 300 hids for export, but we cannot give particulars as unusual efforts are made to keep transactions secret. We quote:

	Light.	Heavy.
Common frosted lugs	7 @ 7%c.	
Partly frosted lugs	7%@ 7%	*******
Sound lugs	8 @ 8%	91 0 c.
Low leaf	9 @ 91/6	10%@11
Medium leaf	10 @11	11%@12%
Good to fine leaf	11 1 @13	13 @14
Selections	131/@14	14%@15

Seed Leaf also remains quiet. In this, as in Kentucky, business

is less than half the average, and prices wholly unsettled. The sales are 150 cases Ohio wrappers, crop of 1868, 22c; 80 cases Ohio, crop of 1869, 13½c; 100 cases Pennsylvania, crop of 1869, 14c; 200 cases Consecticut fillers and seconds, private terms, 60 cases Ohio, crop of 1869, 13@15c; 31 cases Connecticut, crop of 1869, at 30c.

We quote:

1866-Connecticut and Massachusetts Wrappers	35@75c.
1868—Ohio and Pennsylvania Wrappers	25@55
1868-Ohio and Pennsylvania Fillers and Binders	14@17
1869Connecticut and Massachusetts Seconds	25@30

Spanish Tobacco is very dull and we have only to note 250 bales Havana at 824c@\$1 00, currency, duty paid.

Manufactured Tobacco is in small supply and held firm.

The foll-wing are the exports of tobacco from New York for the past week:

The direction of the foreign exports for the week, from the other ports, has been as follows:

From Baltimore—To Amsterdam, 793....To Rotterdam, 230 hhd*, 150 do stems....To Nassau, 46 bales.
From. New Orleans—To Alicante, 6 pkgs.... Fo Gibraltar, for orders, 585 hhds and 6 pkgs samples.
From Boston—To Turk's Island, 2 boxes and 11 half do....To other foreign ports, 36 hhds, 31 bales and 113 pkgs.

BREADSTUFFS.

The market for Breadstuffs had a slight downward tendency until yesterday, when some reaction in prices took place, with a good degree of activity, but some advance te-lay checked the movement.

The receipts of flour have been liberal, though not excessive. The shipping demand has been but moderate and the local trade only fair. Prices gave way a little early in the week, but a demand for the continent checked the decline, and the market yesterday took a turn in favor of sellers; good lines of shipping extras were salable at \$5 25, and very seldom went at less. The medium and better grades sold more freely to the trade To-day the shipping grades were 5c higher, in sympathy with an advance of 3c in Liverpool, but the close was comparatively quiet, as ocean freights were tending upward.

The Wheat market has been active. Receipts by canal have been very free, and the railways have contributed to our supplies. Early in the week prices were somewhat depressed, but later with a demand from the continent, and large orders from Great Britain, and no considerable advance in freights, prices recovered. The receipts at the Western markets have not been so large as last week, when they averaged over 200,000 bushels per day, but circumstances have conspired to advance freights eastward, and materially increase the cost of laying down here. Yesterday there was a large business done in Milwaukee No. 2 at \$1 22\frac{1}{2}\$, and to-day at \$1 22\frac{1}{2}\$ @\$1 23\$, closing at the inside figure. No. 1 Spring sold at \$1 30 @\$1 31\$; Amber Winter \$1 35 in store, and inferior No 2 Spring at \$1 17@\$1 18.

Corn has arrived more freely, and it will be seen that the receipts last week at Chicago were very large. The increased supply depressed prices until good new Spring sold at \$1 06@\$1 06\frac{1}{2}, and old at \$1 08, but there is a recovery of 2@3c per bushel, closing firm but quiet.

Oats have also been in better supply. Western cargoes sold down to 60c, but have recovered 3c with a brisk demand. Rye is firmer. Canadian in bond sold for export at 93c. Barley is nominal. Malt scarce and firmer. Canada Peas have sold at 95@97c, in bond, closing steady.

The following are closing quotations:

GROCERIES.

FRIDAY EVENING. June 8, 1870.

There has been rather more li'e and general animation in this arket, and in some cases important changes in values, with holders the desirable supplies apparently more confident than ever that, ough late, the spring trade will be large enough to make a place r a very considerable amount of the present stocks. It is noticele, however, that a great many of the recent purchases were in secution of back orders, and where the movement was to meet a esh d'stributive outlet very few buyers have operated with enough eedom or confide ce to greatly exceed an early re-sale, and very ght influences tend to check all inquiry. Coffee is lower with ther more doing at the decline. Tea firm and selling well. Suare higher and have sold freely. Molasses steady for prime goods. pices very firm.

Imports this week have included 1,283,039 lbs of tea, 12,973 bags Rio coffee, and about 13,171 bags of other sorts; and fair receipts

sugar and molasses.

The imports at New York for the week, and at the several ports nce Jan. 1, are given below. The totals are as follows:

	At New York this week.			all ports nuary 1. 1869.
Tealb		1,283,039	30,995,589	30,358,230

TEA.

The movement has been fair in lines and a pretty good invoice business ransacted with a generally firm and rather more encouraging tone to the maret, though no actual advance has been quoted as yet. The supplies hold out rell and are so distributed that buyers experience no great difficulty in finding ny ordinary assortment. Japans appear to have attracted a larger share of ttention, but there is still an outlet for first-class qualities of greens. Sales of

stention, but there is still an outlet for first-class qualities of greens. Sales of ,050 pckgs. greens; 9,332 Japans; 3,200 Oolong; and 432 Souchong. Imports of Tea this week have been 3,733 lbs Black, 1,038,266 Green, and 41,040 lbs Japan, per "Good Hope," from Shanghai. The following table shows the comparative shipments of Tea from China and apan to the United States from June 1 to April 4, in two years, and importations into the United States (not including San Francisco), from January 1 to ate, in 1869 to 1870:

SI	FROM JUNE 1	CHINA & JAPAN	IMPORTS FROM CE	
	1869-70.	1868-69.	1870.	1869.
Black		12,725,059	12,296,139	9,075,998
Green		16,400,572	12,455,032	13,443,504
Japan	9,250,852	10,152,889	6,244,418	7,838,733
Total	40 416 895	39 278 520	30 995 589	30 358 230

The indirect importations, including receipts by P. M. Steamers via Aspinall, have been 31,496 pkgs since January 1, against 15,769 last year.

Fair direct importations and continued odd parcels coming to hand from Surope, coupled with a great indifference on the part of buyers finally had the effect to weaken the views of many holders, and soon after our last report ralues were reduced * 6 %c. per lb. on all Brazils and a larger number of samples shown, though a few importers were inclined to refuse to accept the ituation and reject lower bids. At the decline there was a temporary increase of activity on the filling of back orders, etc., but a very decided want of vim to he market and, though up to the close no further changes in values have been nade, there is a weakness on all grades and plenty of holders quite anxious to and an outlet for their supplies at current rates. Buyers, however, still display a noticeable caution and none appear to think it safe to invest in anticipation of their worth, the condition of the interior markets presenting nothing enof their worth, the condition of the interior markets presenting norming en-couraging. The coastwise markets, as reported by mail and telegraph, have been very dull and values generally depressed, though the additions to the supply were moderate. Java and the West India styles attract but little attention, and, though holders ask former rates, there has been scarcely enough business transacted to establish positive values and quotations are to some extent nominal. Jobbing brokers report trade as extremely dull and the distri-bution principally upon small orders per mail. The sales from first hands are bags Rio and Santos; 1,500 bags Maracaibo; 2,000 mats Java; 280 bags Savanilla; 126 bags African; 57 casks, and 57 bbls. plantation Ceylon; and by auction 6,300 bags native Ceylon.

Arrivals of Coffee for the week have included the following cargoes of Rio Steamer "Hermann," 2,335 bags; Str "Bavaria," 2,726 bags; "Friedeburg," 700 bags; "Dr. Barth," 1,805 bags; "Lafayette," 900 bags; "Braziliera," 4,507 bags; "Lafayette," 900 bags; "Braziliera," 4,507 bags; also 3,000 bags of Maracaibo, and 9,943 bags of Ceylon; also 228 bags of sundries.

The stock of Rio, June 2, and the imports since January 1 are as follows:

SUGAR.

The market for raw sugars has shown a much more healthy and stronger tone and holders have obtained quite a decided advantage on the most desirable grades. Refiners, stimulated by a continued sharp call for their product, have been the principal operators, though the trade have taken a fair amount in small irregular lots, and the accumulation of hhds. suffered a further reduction. Parcels on pier were quite scarce owing to the moderate arrivals and the stock in store moved with a little more freedom, though as a rule it is difficult to induce the majority of importers to disturb stored goods at ruling values. In the advance of prices boxes show some irregularity as they have been comparatively neglected and may for the present be considered as somewhat nominal. The increased cost of refined goods has directed the attention of the trade to the centrifugal grades of Cuba and Demarara, and these have sold very fairly.

Advices from the European markets have been firm, and the cost in Cuba is rather increasing, all of which are advanced as strengthening influences, and indeed accepted to a certain extent, but a great many sugars are yet thought to be due from Cuba, and with few exceptions buyers still consider it the safest course to study pretty closely actual necessities in all operations. Refined have continued in very active demand, with most manufacturers unable to keep up their orders and prices further advanced, powdered ranging %0%. above all other grades owing to its scarcity. The general market closes with a continued strong tone and buyers operating freely. The transactions in raws for the week embrace 9,752 hhds. Cuba; 1,713 hhds. Porto Rico; 363 hhds. Martinique; 531 hhds. Demerara; 7,858 boxes Havana, 4,040 bags Manila, and 120 mats St Domingo

Imports at New York, and stock in first hands, June 2, were as follows:

MOLASSES.

There has been no unusual activity but in odd lots from day to day, and occasionally a full cargo, buyers have taken a very fair aggregate of stock for the week. As before the demand was directed principally to the fine and fancy grocery descriptions and choice boiling grades, all of which have realized full prices, in some cases a slight advance, and close pretty firm, with only a moderate supply available. On the common and inferior sorts some holders were inclined to exhibit more firmness but have not been successful in drawing out any increased demand and values are still more or less nominal. A few broken parcels of domestic are still to be found, and owners are insisting upon very high figures. Sales of 800 hhds. Cuba muscovado; 575 hhds. Porto Rico; very high figures. Sales of 800 hhds. Cuba muscovado; 575 hhds. Porto Rico 125 Demerara; 150 hhds. various grades in odd lots, and 60 bbls. New Orleans. The receipts at New York, and stock in first hands, June 2, were as follows:

SPICES.

An extremely firmer feeling appears to prevail throughout this market and holders generally exhibit no anxiety to create an outlet for goods beyond such demand as may develope itself in the regular course of business. foreign markets of distribution are said to be relatively higher than the values current here: crop advices as a rule are not encouraging, and the accumulation of supplies it is thought will barely prove sufficient for even a reduced consumption. Nutmegs are still attracting the most attention, and, if anything, are higher, but pepper also sells quite freely, and cassia, mace and ginger are doing well.

The market for Foreign Dried during the past week has ruled quiet, but today there has been more inquiry and a fair trade has been done. Importers are very firm and, as the stock is unusually light, the tendency of prices is decidedly upward- A fair trade may be looked for this and next month, as the dealers are without stock and will have to buy to supply actual wants.

The receipts of domestic dried since our last have been light, but the stock of most kinds here is heavy for this season of the year, and the probabilities are that large quantities will have to be carried over. We hear of no important A few small lots of apples have been bought by the west side dealers for their immediate wants, but they buy no more than they actually need at the time. Unpeeled peaches are dull; no one wants them at any price. Prime pared are scarce and wanted, but grades other than prime are unsalable. Pitted cherries of fine quality are in fair demand, but wet or sour are neglected. Blackberries are nominal. Green Foreign from the Mediterranean are becoming less plenty, and the last cargo of Sicily to come forward this year was sold on To-day, from store at auction, sale was made of 100 boxes early cut Messina Lemons, and 150 boxes Palermo do. They were of very inferior quality, and the prices obtained, if quoted, would not be a criterion of the market. Store prices have advanced, and we now quote repacked Oranges at \$\$6@\$6 50 per box. November cut Lemons, \$5@\$6

per box, and fresh cut do. at \$2@\$3 per box. West India are arriving per box, and fresh the with ready sale at good prices, Pineapples selling at \$12@\$18 per C, Bananas at \$1 50@\$2 50, and some extra at \$3@\$5 per Baracoa Cocoanuts, \$35 per M for rough, and \$38 for clean husk, and Carthagena at \$65@\$70 per M. Domestic Green are without change since our Apples are quiet, but firmly held, with a light stock, composed entirely of Russets. We quote \$5 500 \$6 per bbl. Strawberries are quite plenty, and the prospects are that we will have a good supply all season. The demand is good, and prices realized are fair. Seedlings sell at 10 \$250. per quart, and small at 8@10c. per quart. Cherries are coming in from the South, and sell at Peanuts are still in good demand, and large sales of North 10@12c. per lb. logace, per 15. Feathers are sun in good demand, and also sales of Notal Carolina have been made at full prices. Virginia have also met with more in-quiry, but, as the quality is inferior, prices realized have not been more than equal to Wilmingtons. Pecan nuts are quiet but steady. Canned goods are selling fairly, but prices still rule below cost.

We annex ruling quotations in first hands. On the purchase of small lots prices are a rraction higher.

THE DRY GOODS TRADE.

FRIDAY, P. M., June 3, 1870.

We note a little more activity in the market during the present week, the number of buyers being somewhat larger, which, if not materially increasing the aggregate sales, has given to the trade a more animated appearance. To all appearance the movements from jobbers' hands are very light, but the fact that first hands find a steady, though light demand for staple goods, leads to the inference that a fair quantity of goods is being distributed.

In woolens the market is not specially active, being destitute of the speculative traffic which has sometimes prevailed at this period in past seasons. Dealers generally express gratification at the absence of speculation, as the light stocks in clothiers' and jobbers' hands will make the opening of the fall season more favorable.

The general range of prices on both cotton and woolen fabrics,

remain without important change. The reduction of rates at this stage of the season does not seem to stimulate sales; buyers are disinclined to take larger quantities of any fabrics than their actual wants warrant, and, in view of this fact, holders for the most part steadily maintain quotations.

Imported goods continue quiet, without special feature. importers are stocking up in anticipation of a heavy trade later in the market, but the general belief seems to be that the business in question, which is always more or less speculative, will not be realized this se son.

The exports of dry goods for the past week, and since January 1. 1870, and the total for the same time in several previous years are shown in the following table:

				-FROM NEW	YORK	F	ROM BOSTON

We amex a few particulars of leading articles of domestic manufacture, our prices quoted being those of the leading Jobbers :

Brown Shretings and Shirtings do not improve to any extent, though there has been a moderate trade in progress, with movements of fair amounts of the best makes. The lower grades and less favorably known brands are not especially active, but the movements are about known brands are not especially active, but the movements are about up to expectations, and prices are for the most part firm, the latter fact being due in a great measure to the limited stocks of all grades in first hands. There has been a partial revision of our quotations during the week, prices of some of the lower grades being shaded a trifle, though no important changes have been made. Agawam F 36 114, Amoskeag A 36 144, do B 36 14, Atlantic A 36 15, do D 124, do H 144, do P 36 12, do L 36 13, do V 33 124, do N 30 104, Appleton A 36 15, Augusta 36 14, do 30 13, Broadway 86 12, Bedford R 30 84, Boott H 27 11, do O 34 114, do S 0 122, do W 45 184, Commonwealth O 27 8, Grafton A 27 74, Graniteville AA 36 15, do 30 18, Indian Orchard A 40 184, do C 36 12, do BB 36 11, do W 34 10, do N N 31 dian Orchard A 40 184, do C 36 12, do BB 36 11, do W 34 10, do N N 36 15, Great Falls M 36 12, do S 38 11, Indian Head 36 15, do 30 18, Indian Orchard A 40 18½, do C 36 12, do BB 36 11, do W 34 10, do NN 36 13½, Laconia O 39 14½, do B 37 13, do E 36 11½, Lawtence A 36 11½, do C 86 —, do F 36 12½, do G 34 12, do H 27 10, do LL 36 12, Lyman C 36 18, do E 36 14½, Massachusetts E 3311½, do J 30 11½, Medford 36 15, Nashua fize 38 18, do 36 15, do E 40 17, Newmarket A 12½, Pacific extra 36 14½ do H 36 14½, do L 36 13, Pepperell 7-4 80, do 8-4 35, do 9-4 40, do 10-4 45, do 11-4 50, Pepperell E fine 39 13½, do R 36 12½, do C 33 11½, do N 80 10½, Pocasset F 30 8½, do K 86 13½, do Canoe 40 15, Saranac fine O 33 13, do R 36 15, do E 39 17, Sigourney 36 10½, Stark A 36 14½, Swift River 36 11, Tiger 27 8½.

Bleached Shertinos and Shertinos are being distribut d with some freedom in small lots to supply the current wants of the consuming trade. The present inquiry is chiefly for standard goods of leading brands, although medium grades of the best makes are fairly active. Agents are placing satisfactory amounts to the jobbing trade, and the movements appear to be, on the whole, quite as heavy at this period as in former seasons. Prices are without quotable change, but we hear of occasional private concessions on medium and low counts only. Amoskeag 46 19, do 42 17, do 54 20, do A 36 15½, do Z 24 11, American A 36 12½, Androscoggin L 36 16, Arkwright WT 36 17½, Auburn —, Atlantic Cambric 36 21, Ballou & Son 36 13½, do 31 11, Bartletts 36 15, do 33 14, do 31 13, Bates XX 36 17, do B 38 14, Blackstone 36 14½, do D 37 13½, Boott B 36 15, do C 33 18½, do E 36 12, do H 28 11½, do O 30 11½, do R 23 9, do W 46 19, Clarks 36 20, Dwight 40 21, Ellerton 10-4 39½-45, Forestdale 36 15, Fruit of the Loom 36 17, Globe 27 8, Gold Medal 36 14, Green-M'fg Oo 36 10½, do 31 10, Great Falls Q 36 16½, do J 33 —, do S 31 11½, do A 32 13, Hill's Semp. Paints have experienced no remarkable change since our last review. do 86 211, Washington 38 91.

do 6-4 30, do 8-4 40, do 9-4 45, do 10-4 50, Wamsutta 45 29, do 40½ 26, do 36 21½, Washington 33 9½.

Painrs have experienced no remarkable change since our last review. The business of this department continues fair in comparison with other fabrics, but is gradually settling down to the usual summer inactivity, and even now sales are only made of small quantities of the most staple brands to fill broken assortments. The Cambric styles of various mills are still very popular, and agents are making sales far ahead of production. Some few diives have been offered by jobbers in special lines, but our quoted list is generally unchanged, and to all appearances firm. Albion solid 11, Albion ruby 11½, Allens 11, do pinks 12, purples 11½, Mernions olid 11, Albion ruby 11½, Allens 11, do pinks 12, purples 11½, Merrimac D 12, do pink and purple 14, do W 13½, Oriental 10½, Pacific 11½, Richmond's 11½, Simpson Mourn'g 10½, Sprague's pink 12, do blue and White 11, do shirtings 10½, Wamsutta 7@7½.

Painting Clotas have been less active, with only moderate sales in the aggregate, and prices are a trifle lower. At Fall River to-day the market continues dull, with sales of 3,000 pieces at 6½c.

Cotton Daills are without active inquiry, either for export or home consumption. Amoskeag 15½, Augusta 16, Graniteville D 16, Hamilton 16, Laconia 15½, Pepperell 15, Stark A 15, do H 14.

Girchams show no improvement but the business is fair for this stage of the season, with a moderate degree of firmness in prices. Cllyde, 11; Earlston, extra, 18; Glasgow, 15; Gloucester, 14½;

Hadley, 14; Hampden, 16; Hartford, 12½; Lancaster, 17; Lancashire, 15; Pequa, 12½; Park Mills, 14; Quaker City, 14; Roanoke, 12½; Union, 12½.

MOUSERLINE DE LAINES are languid, with but little stability in prices, except for the most staple makes. Hamilton, 15; Lowell, 15; Manchester, 15; do all wool, 37½; Pacific, 15; do Armures, 18; do Piain, 18; do Robe de C, 20; do plain Oriental, 17; do Anilines 20; do Serges, 21; do Alpacas, 21; do do 6-4, 23½; Percales 4 4, 23½; Ludres, 17.

PRINTED LAWNS AND PERCALES of the leading makes and choice styles find ready sale; the general trade is dull, however, and inferior goods are not easily placed except at concessions.

are not easily placed except at concessions.

OTHER COTTON GOODS present up new phases, and are for the most part without notable change. Quotations in some instances are off a trifle, but the general list is fairly maintained, and the market is quite as active as was anticipated earlier in the season.

Woolen Goods are the leading fabric in the market inst now, and 80 25. do 82 31.

Woolen Goods are the leading fabric in the market just now, and exhibit a fair degree of activity, although the week has brought about but little improvement in sales. There is an active demand from California for fine fancy cassimeres in heavy weights; and new styles of these goods, which have not been shown to the near-by trade, are being freely taken by the representatives of the far Western trade. Fancy beavers for overcoatings of the most favorably known makes are meeting ready distribution to the clothing and jobbing trade. Holders steadily maintain prices, and in some instances slight advances are reported. A brisk demand is anticipated later, but even now the movements could be largely augmented by concessions from present asking rates.

Forsign Goods.—This department of the market continues quiet, with some falling off in the volume of business. Staple dress goods suited to the season are in moderate request, but in the majority of foreign fabrics trade is flat. Prices of dress goods continue in the same condition as heretofore reported. Staple goods in free request are steadily advancing, while for the heavier fabrics there is but little stability in quotations. The auction houses are placing goods more freely at the close of the week, although at considerably less prices. WOOLEN GOODS are the leading fabric in the market just now, and

IMPORTATIONS OF DRY GOODS AT THE PORT OF NEW YORK.

The importations of dry goods at this port for the week ending June 2, 1870, and the corresponding weeks of 1868 and 1869, have been as
